FOREWORD

This is the sixth edition of the Annual Supplement. It contains the monthly and quarterly historical records, adjusted and unadjusted for seasonality, of all the series appearing in the S - section of the monthly Canadian Statistical Review. The pages are numbered and the series are arranged in the same order as they appear in the Review. Thus S-1-1 signifies that the series contained therein is the first one on page S-1 of the Review. This edition supercedes all previous editions, the last of which was published in September 1966.

The adjusted and unadjusted data are the latest revised figures published and extend to December 1966; they may be kept up-dated by referring to current issues of the Review. Should the original data or the method of seasonal adjustment be revised during the year, the complete revisions will be made available to all subscribers through the medium of the Weekly Supplement to the Canadian Statistical Review (Catalogue No. 11-004). These issues should be inserted into the present publication in place of the obsolete sheets. In this way, users will be kept abreast of all revisions to the data and of all additions or deletions to the series in the S-section of the Review, and have at all times the entire postwar record.

The seasonally adjusted labour force series for Canada on pages S-1 have been modified for the entire period from January 1953 to date. No revisions were made to the unadjusted data.

The unadjusted and seasonally adjusted series on retail trade on pages S-5 have been changed from January 1961 onwards according to the 1960 Standard Industrial Classification. Classification changes and the current monthly sample have been linked to results of the 1961 Census of Merchandising. The seasonally adjusted counterparts have been adjusted by the X-11 variant of the United States Bureau of the Census, Method II program.

The monthly original and seasonally adjusted series on building permits (pages S-6-1, S-6-2 and S-6-3) have been revised for the entire period commencing with January 1948.

AVANT-PROPOS

Le présent volume est la sixième édition du Supplément annuel. Il contient les chiffres chronologiques mensuels et trimestriels, désaisonnalisés et bruts, de toutes les séries de la Section "S" de la Revue statistique mensuelle du Canada. Les pages sont numérotées et les séries présentées dans le même ordre que la Revue. Ainsi, S-1-1 signifie que la série contenue dans le Supplément est la première de la page S-1 de la Revue. La présente édition remplace toutes les éditions antérieures dont la dernière a paru en septembre 1966.

Les données désaisonnalisées et brutes sont les chiffres révisés les plus récents et s'étendent à décembre 1966; on peut les garder à jour en se référant aux numéros courants de la Revue. Advenant la modification durant l'année, des données primitives ou de la méthode de désaisonnalisation, les révisions entières seront mises à la disposition de tous les abonnés par l'intermédiaire du Supplément hebdomadaire de la Revue statistique du Canada, (no. de catalogue 11-004 F), et devront être insérées dans la présente publication à la place des feuilles périmées. De cette façon, l'utilisateur sera tenu au courant de toutes les révisions et de toutes les données ajoutées ou supprimées dans la Section "S" de la Revue et aura constamment à sa disposition l'ensemble des chiffres d'après-guerre.

Les séries désaisonnalisées de la main-d'oeuvre pour le Canada (pages S-1) ont été révisées pour la période entière, c'est-à-dire de janvier 1953 à ce jour. Les données brutes de ces séries demeurent inchangées.

Les chiffres bruts et désaisonnalisés sur le commerce de détail apparaissant aux pages S-5 ont été révisés à partir de janvier 1961 en conformité avec la Classification type des industries de 1960. Les changements apportés à la nouvelle Classification ainsi que le relevé mensuel échantillon ont été rattachés aux données repères du Recensement du commerce de 1961. Les contre-parties désaisonnalisées ont été ajustées d'après la variance 11 du Bureau du recensement des États-Unis suivant le programme de la Méthode II.

Les données mensuelles brutes et désaisonnalisées sur les permis de construire (pages S-6-1, S-6-2 et S-6-3) ont été rectifiées pour la période entière, c.-à-d. depuis janvier 1948.

The monthly original and seasonally adjusted data on new dwelling units in the remaining pages S-6 have been changed from "centres 5,000 and over" to "centres 10,000 and over" commencing with the year 1962. Prior to that date, the data relate to centres of 5,000 population and over.

The seasonally adjusted series on exports and imports by major countries on pages S-7 have been revised for the entire period from January 1946. The data now published have been adjusted by the X-11 variant of the United States Bureau of the Census, Method II program.

The original and seasonally adjusted data on total manufacturing inventories, shipments and orders on pages S-8 are revised starting with January 1962. A number of factors contributed to the change in the revised figures. Actual values of the 1962, 1963 and 1964 Census of Manufactures are now used for these years and the 1964 Census values have been used as the base values for the following years. The data for 1965 and 1966 have been adjusted to include values reported too late to be included in the original estimates.

Both the seasonally adjusted data on rail revenue freight loaded (page S-8-5) and cheques cashed in clearing centres (page S-8-6) have been modified starting with January 1962.

The monthly and quarterly seasonally adjusted series on consumer credit outstanding (pages S-8-7 and S-9-6 respectively) have been revised for the entire period from 1952 to date. The data now presented have been adjusted by the X-11 variant of the United States Bureau of the Census, Method II program.

Les données mensuelles brutes et désaisonnalisées des logements neufs (autres pages S-6) dans les centres de 5,000 habitants et plus ont été portées à 10,000 âmes et plus à partir de 1962. Les chiffres antérieurs à cette date s'appliquent aux centres de 5,000 et plus.

Les séries désaisonnalisées des importations et exportations par principaux pays (pages S-7) ont été révisées de janvier 1946 jusqu'à date. Les nouvelles données ont été rectifiées d'après la variance X-11 du Bureau du recensement des États-Unis suivant le programme de la Méthode II.

Les données originales et désaisonnalisées sur les inventaires, les expéditions et les commandes des fabricants (pages S-8) ont été changées à compter de janvier 1962. Plusieurs facteurs ont contribué aux changements effectués dans les chiffres. Les valeurs actuelles du Recensement des manufactures pour les années 1962, 1963 et 1964 sont maintenant employées pour ces années et les valeurs du Recensement de 1964 sont utilisées pour les années subséquentes. Les chiffres des années 1965 et 1966 ont été ajustés de manière à inclure les valeurs qui accusaient un retard lors de la préparation des estimations originales.

Les séries désaisonnalisées sur le trafic ferroviaire commercial (page S-8-5) et sur les chèques encaissés dans les centres de compensation (page S-8-6) ont été modifiées depuis janvier 1962.

Les données mensuelles et trimestrielles désaisonnalisées sur l'encours du crédit à la consommation telles qu'elles apparaissent aux pages S-8-7 et S-9-6 respectivement ont été révisées pour la période entière, c.-à-d. de 1952 à ce jour. Les chiffres ont été rectifiés d'après la variance X-11 du Bureau du recensement des États-Unis suivant le programme de la Méthode II.

Walter E. Duffett,
Dominion Statistician

Walter E. Duffett,
Statisticien du Dominion.

Note: The data for all retail trade series on pages S-5-1 to S-5-4 inclusive have been revised according to the 1960 Standard Industrial Classification and linked to results of the 1961 Census of Merchandising. The revised data on the new basis for the years prior to 1961 will be available later. The data for the years 1947 to 1960 on the unrevised S.I.C. are available in the 1965 edition of the Supplement. -- Nota: Les données pour toutes les séries du commerce de détail contenues aux pages S-5-1 à S-5-4 inclusivement ont été révisées en conformité avec la Classification type des industries de 1960 et rattachées aux données repères du Recensement du commerce de 1961. Les chiffres révisés d'après la nouvelle base pour les années antérieures à 1961 seront disponibles plus tard. Les données des années 1947 à 1960 fondées sur la Classification non révisée des industries sont disponibles dans l'édition 1965 du Supplément.

(1) Prior to 1953, the data for total new motor vehicle sales are obtained by the addition of total commercial vehicles, page S-5-8, and total passenger vehicles, page S-5-(6+7). After January 1953, this series is a summation of total commercial vehicles and Canadian, United States and overseas manufactured passenger vehicles, pages S-5-6 and S-5-7 -- Les chiffres d'avant 1953 s'obtiennent par l'addition du total des voitures utilitaires, page S-5-8, et du total des voitures particulières, page S-5-(6+7). Après janvier 1953, la série est la sommation du total des voitures utilitaires et des voitures particulières fabriquées au Canada, aux États-Unis et outre-mer, pages S-5-6 et S-5-7.

(1) The breakdown of passenger car sales between Canadian, United States and overseas manufactured types is not available prior to January 1953. The original and seasonally adjusted series presented on this page are continuous with the sum of the series on pages S-5-6 and S-5-7 -- La répartition des ventes de voitures particulières fabriquées au Canada, aux États-Unis et outre-mer n'existe pas avant 1953. Les séries brute et désaisonnalisée présentées sur cette page équivalent chacune à la somme des séries des pages S-5-6 et S-5-7.

(1) Starting in January 1962, the data are not entirely comparable with earlier years because more centres are included and because of the expansion of the boundaries of metropolitan areas. Prior to 1962, data relate to centres of 5,000 and over population. -- À compter de janvier 1962, les chiffres ne sont pas entièrement comparables à ceux des années antérieures en raison du plus grand nombre de centres et de l'expansion des limites des zones métropolitaines. Avant 1962, les données s'appliquent aux centres de 5,000 et plus de population.

(1) Starting with January 1958, the monthly data reflect revisions 1) to incorporate the new revised Standard Industrial Classification and 2) to apply the new establishment concept. Values for 1958, however, are affected only slightly. For further details of changes see "Inventories, Shipments and Orders in Manufacturing Industries" (Cat. No. 31-001, monthly) 1963 First Report, and January, February, March 1964 -- À partir de janvier 1958, les chiffres mensuels reflètent les révisions apportées pour tenir compte 1) de la nouvelle Classification type (révisée) des industries et 2) du nouveau concept de l'établissement. Toutefois, les valeurs de 1958 ne sont que légèrement modifiées. On trouvera plus de détails dans Inventories, Shipments and Orders in Manufacturing Industries (no. 31-001 au catalogue mensuel) premier rapport de 1963, et janvier, février, mars 1964.

FOREWORD

This is the seventh edition of the Annual Supplement. It contains the monthly and quarterly historical records, adjusted and unadjusted for seasonality, of all the series appearing in the S - section of the monthly Canadian Statistical Review. The pages are numbered and the series are arranged in the same order as they appear in the Review. Thus S-1-1 signifies that the series contained therein is the first one on page S-1 of the Review. This edition supersedes all previous editions, the last of which was published in August 1967.

The adjusted and unadjusted data are the latest revised figures published and extend to December 1967; they may be kept up-dated by referring to current issues of the Review. Should the original data or the method of seasonal adjustment be revised during the year, the complete revisions will be made available to all subscribers through the medium of the Weekly Supplement to the Canadian Statistical Review (Catalogue No. 11-004). These issues should be inserted into the present publication in place of the obsolete sheets. In this way, users will be kept abreast of all revisions to the data and of all additions or deletions to the series in the S-section of the Review, and have at all times the entire postwar record.

The seasonally adjusted labour force series for Canada on pages S-1 have been modified for the entire period from January 1953 to date. No revisions were made to the unadjusted data.

The series for industrial production on pages S-2 have been completely revised due to the incorporation of a 1961 weight and reference base and the use of the 1960 Standard Industrial Classification. The data have been seasonally adjusted using the X-11 variant of the United States Bureau of the Census, Method II seasonal adjustment program.

The seasonally adjusted employment series on pages S-3 have been revised for the entire period from January 1961 to date. No revisions were made to the unadjusted data.

The seasonally adjusted series on average hourly earnings (Pages S-4-3, S-4-4 and S-4-5) and average weekly hours (Pages S-4-6, S-4-7 and S-4-8) in manufacturing have been revised for the entire period starting with January 1961. The original series have not been revised.

AVANT-PROPOS

Le présent volume est la septième édition du Supplément annuel. Il contient les chiffres chronologiques mensuels et trimestriels, corrigés des variations saisonnières et bruts, de toutes les séries de la Section "S" de la Revue statistique mensuelle du Canada. Les pages sont numérotées et les séries présentées dans le même ordre que dans la Revue. Ainsi, S-1-1 signifie que la série contenue dans le Supplément est la première de la page S-1 de la Revue. La présente édition remplace toutes les éditions antérieures, dont la dernière a paru en août 1967.

Les données corrigées des variations saisonnières et brutes sont les chiffres révisés les plus récents et s'étendent à décembre 1967; on peut les tenir à jour grâce aux numéros courants de la Revue. Advenant la modification durant l'année des données primitives ou de la méthode de correction des variations saisonnières, des révisions complètes seront mises à la disposition de tous les abonnés par l'intermédiaire du Supplément hebdomadaire de la Revue statistique du Canada, (no. de catalogue 11-004 F), et devront être insérées dans la présente publication à la place des feuilles périmées. De cette façon, l'utilisateur sera tenu au courant de toutes les révisions et de toutes les données ajoutées ou supprimées dans la Section "S" de la Revue, et aura constamment à sa disposition l'ensemble des chiffres d'après-guerre.

Dans les séries sur la main-d'oeuvre du Canada (pages S-1), les données corrigées des variations saisonnières relatives à l'ensemble de la période considérée, c'est à dire de janvier 1953 à ce jour, ont été révisées. Les données brutes de ces séries demeurent inchangées.

Les séries sur la production industrielle (page S-2) ont été complètement remaniées par suite de l'adoption de l'année 1961 comme base de pondération et de référence, ainsi que l'adoption de la Classification type des industries de 1960. Les données ont été corrigées des variations saisonnières à l'aide de la variante X-11 de la méthode II du programme de correction des variations saisonnières du United States Bureau of the Census.

Dans les séries sur l'emploi (pages S-3), les données corrigées des variations saisonnières relatives à la période allant de janvier 1961 jusqu'à maintenant ont été rectifiées. Les données brutes n'ont pas été révisées.

Dans les séries sur le gain horaire moyen (pages S-4-3, S-4-4 et S-4-5) et sur les heures hebdomadaires moyennes (pages S-4-6, S-4-7 et S-4-8) dans la fabrication, les données corrigées des variations saisonnières relatives à la période écoulée depuis janvier 1961 ont été révisées. Les données brutes n'ont pas été révisées.

The unadjusted retail trade statistics (pages S-5) have been revised for the period 1965 through 1967 to account for "births and deaths", i.e. new firms coming into business and firms ceasing operations. The seasonally adjusted series have been revised for the entire period 1961 to date.

The monthly original and seasonally adjusted value series on new motor vehicle sales have been replaced by units series. The value series have been discontinued due to changes in the valuation of new motor vehicles applied to sales in 1967 but not in previous years. Statistics of units sold are consistent over time. They have been adjusted by the X-11 variant of the Census Method II. A trading-day adjustment based upon the actual variations in the data was applied. The monthly adjustment factors were calculated by computer from seven daily weights as determined by a regression technique included in the X-11 program.

The value series (identified as S-5-5 (b) to S-5-8(b)) are also published with the original series extended to December 1967.

Seasonally adjusted data for value of building permits (pages S-6-1, S-6-2 and S-6-3) have been revised for the entire period commencing with January 1948. The series have been adjusted by the X-11 Variant of the Census Method II. Adjustments made for trading-day variation were derived from actual variations in the data

Seasonally adjusted data for exports and imports (pages S-7) have been revised commencing with January 1961. Export and import series have been adjusted by the X-11 variant of the Census Method II. Adjustments made for trading-day variation were derived from actual variations in the data.

Both the seasonally adjusted data on rail revenue freight loaded (page S-8-5) and cheques cashed in clearing centres (page S-8-6) have been revised for the entire period from 1946. The X-11 variant of the Census Method II has been used for seasonal adjustment. Adjustments made for shipping-day variation (page S-8-5) and for trading-day variation (page S-8-6) were derived from actual variations in the data.

Les statistiques brutes sur le commerce de détail pour les années 1965, 1966 et 1967 (pages S-5) ont été révisées afin de tenir compte de l'ouverture de nouveaux commerces et de la fermeture d'anciens. Les séries corrigées des variations saisonnières relatives à l'ensemble de la période, c'est-à-dire de 1961 jusqu'à nos jours, ont été révisées.

Les séries mensuelles de données brutes et corrigées des variations saisonnières établies à partir de la valeur des véhicules automobiles neufs ont été remplacées par des séries établies à partir du nombre de véhicules vendus. La série établie à partir de la valeur a été abandonnée à cause de la modification du mode d'évaluation des ventes de véhicules automobiles survenue en 1967, mais qui n'est pas applicable aux années antérieures. Les statistiques établies à partir du nombre de véhicules demeurent comparables d'année en année. Ces statistiques ont été corrigées au moyen de la variante X-11 de la méthode II du U.S. Census Bureau. On a effectué une correction pour tenir compte des écarts relatifs à la date de vente; cette correction est fondée sur les écarts réels. Les coefficients de correction de chaque mois ont été calculés mécanographiquement au moyen de sept poids correspondant respectivement à chacun des jours de la semaine, selon une méthode de régression qui fait partie du programme X-11.

Les séries établies à partir de la valeur (S-5-5(b) à S-5-8(b)) sont également publiées; les données brutes vont jusqu'à décembre 1967.

Dans les séries sur la valeur des permis de construire des pages S-6-1, S-6-2 et S-6-3, les données corrigées des variations saisonnières relatives à la période depuis janvier 1948 ont été révisées. Cette révision a été accomplie au moyen de la variante X-11 de la méthode II du U.S. Census Bureau. Les corrections effectuées pour tenir compte des écarts relatifs à la date du permis sont fondées sur les écarts réels.

Dans les séries sur les exportations et les importations, (pages S-7), les données corrigées des variations saisonnières relatives à la période depuis janvier 1961 ont été révisées. Les séries sur les exportations et les importations ont été rectifiées au moyen de la variante X-11 de la méthode II du U.S. Census Bureau. Les corrections effectuées pour tenir compte des écarts relatifs à la date d'importation ou d'exportation sont fondées sur les écarts réels.

Dans les séries tant sur trafic ferroviaire commercial (page S-8-5) que sur les chèques présentés à la compensation (page S-8-6), les données corrigées des variations saisonnières relatives à la période depuis 1946 ont été révisées. La correction des variations saisonnières a été faite au moyen de la variante X-11 de la méthode II du U.S. Census Bureau. Les corrections effectuées pour compenser les écarts relatifs à la date d'expédition (page S-8-5) et à la date d'opération (page S-8-6) sont fondées sur les écarts réels.

The monthly and quarterly original and seasonally adjusted series on consumer credit outstanding (pages S-8-7 and S-9-6 respectively) have been revised starting with 1965.

Seasonally adjusted data for commercial failures (page S-9-10) have been revised for the entire period from 1955. The series has been adjusted by the X-11 variant of the Census Method II. Adjustments made for trading-day variation were derived from actual variations in the data.

The monthly and quarterly seasonally adjusted series on new dwelling units (pages S-6-4, S-6-5, S-6-6 and S-9-7, S-9-8, S-9-9 respectively) have been revised starting with 1950.

Dans les séries mensuelles (page S-8-7) et trimestrielles (page S-9-6), les données brutes et corrigées des variations saisonnières sur le crédit à la consommation en cours postérieures à 1965 ont été révisées.

Dans la série sur les faillites commerciales (page S-9-10), les données corrigées des variations saisonnières relatives à la période depuis 1955 ont été révisées. Cette série a été corrigée au moyen de la variante X-11 de la méthode II du U.S. Census Bureau. Les corrections effectuées pour compenser les écarts relatifs à la date de la faillite sont fondées sur les écarts réels.

Dans les séries mensuelles (pages S-6-4, S-6-5 et S-6-6) et trimestrielles (S-9-7, S-9-8 et S-9-9), les données corrigées des variations saisonnières sur la construction domiciliaire relatives à la période depuis 1950 ont été révisées.

Note: The data for all retail trade series on pages S-5-1 to S-5-4 inclusive have been revised according to the 1960 Standard Industrial Classification and linked to results of the 1961 Census of Merchandising. The revised data on the new basis for the years prior to 1961 will be available later. The data for the years 1947 to 1960 on the unrevised S.I.C. are available in the 1965 edition of the Supplement. -- Note: Les données pour toutes les séries du commerce de détail contenues aux pages S-5-1 à S-5-4 inclusivement ont été révisées en conformité avec la Classification type des industries de 1960 et rattachées aux données repères du Recensement du commerce de 1961. Les chiffres révisés d'après la nouvelle base pour les années antérieures à 1961 seront disponibles plus tard. Les données des années 1947 à 1960 fondées sur la Classification non révisée des industries sont disponibles dans l'édition 1965 du Supplément.

(1) The breakdown of passenger car sales between Canadian, United States and overseas manufactured types is not available prior to January 1953. The original and seasonally adjusted series presented on this page are continuous with the sum of the series on pages S-5-6 and S-5-7 -- La répartition des ventes de voitures particulières fabriquées au Canada, aux États-Unis et outre-mer n'existe pas avant 1953. Les séries brute et désaisonnalisée présentées sur cette page équivalent chacune à la somme des séries des pages S-5-6 et S-5-7.

(1) Prior to 1953, the data for total new motor vehicle sales are obtained by the addition of total commercial vehicles, page S-5-8, and total passenger vehicles, page S-5-(6+7). After January 1953, this series is a summation of total commercial vehicles and Canadian, United States and overseas manufactured passenger vehicles, page S-5-6 and S-5-7. -- Les chiffres d'avant 1953 s'obtiennent par l'addition du total des voitures utilitaires, page S-5-8, et du total des voitures particulières, page S-5-(6+7). Après janvier 1953, la série est la sommation du total des voitures utilitaires et des voitures particulières fabriquées au Canada, aux États-Unis et outre-mer, pages S-5-6 et S-5-7. (2) The 1967 dollar values of new motor vehicle sales are not comparable with previous years due to changes in the valuation. The seasonally adjusted data are not available for 1967. -- Les ventes, en dollars, de véhicules automobiles neufs pour l'année ne sont pas comparables aux années antérieures en raison des changements apportés dans l'évaluation. Les chiffres corrigés des variations saisonnières ne sont pas disponibles pour 1967.

(1) Prior to 1962, the sum of the components does not add up to "Total Value of Building Permits" which includes "others". --
 Pour la période antérieure à 1962, la somme des groupes n'additionne pas à la "valeur totale des permis de bâtir", laquelle
 inclut "autres".

(1) Starting in January 1962, the data are not entirely comparable with earlier years because more centres are included and because of the expansion of the boundaries of metropolitan areas. Prior to 1962, data relate to centres with a population of 5,000 and over. -- À compter de janvier 1962, les chiffres ne sont pas entièrement comparables à ceux des années antérieures en raison du plus grand nombre de centres et de l'expansion des limites des zones métropolitaines. Avant 1962, les données s'appliquent aux centres de 5,000 et plus de population.

(1) Starting with January 1958, the monthly data reflect revisions 1) to incorporate the new revised Standard Industrial Classification and 2) to apply the new establishment concept. Values for 1958, however, are affected only slightly. For further details of changes see "Inventories, Shipments and Orders in Manufacturing Industries" (Cat. No. 31-001, monthly) 1963 First Report, and January, February, March 1964 -- À partir de janvier 1958, les chiffres mensuels reflètent les révisions apportées pour tenir compte 1) de la nouvelle Classification type (révisée) des industries et 2) du nouveau concept de l'établissement. Toutefois, les valeurs de 1958 ne sont que légèrement modifiées. On trouvera plus de détails dans Inventories, Shipments and Orders in Manufacturing Industries (no. 31-001 au catalogue mensuel) premier rapport de 1963, et janvier, février, mars 1964.

(1) Starting with January 1958, there is some discontinuity in monthly values of shipments caused by revisions described in the footnote on page S-8-1. The changes lowered monthly values in 1958 by 3.3 per cent from values before the revisions -- A partir de janvier 1958, il existe une certaine discontinuité dans les valeurs mensuelles des expéditions en raison des modifications mentionnées au renvoi de la page S-8-1. Les modifications ont fait baisser les valeurs mensuelles de 1958 de 3.3 p. 100 au regard des valeurs antérieures aux revisions.

(1) Starting with January 1958, there is some discontinuity in monthly values of new orders caused by revisions described in the footnote on page S-8-1. The changes lowered monthly values in 1958 by 3.4 per cent from values before the revisions -- À partir de janvier 1958, il existe une certaine discontinuité dans les valeurs mensuelles des nouvelles commandes en raison des modifications mentionnées au renvoi de la page S-8-1. Les modifications ont fait baisser les valeurs mensuelles de 1958 de 3.4 p.100 au regard des valeurs antérieures aux révisions.

FOREWORD

This is the eighth edition of the Annual Supplement. It contains the monthly and quarterly historical records, adjusted and unadjusted for seasonality, of all the series appearing in the S - section of the monthly Canadian Statistical Review. The pages are numbered and the series are arranged in the same order as they appear in the Review. Thus S-1-1 signifies that the series contained therein is the first one on page S-1 of the Review. This edition supersedes all previous editions, the last of which was published in September 1968.

The adjusted and unadjusted data are the latest revised figures published and extend to December 1968; they may be kept up-dated by referring to current issues of the Review. Should the original data or the method of seasonal adjustment be revised during the year, the complete revisions will be made available to all subscribers through the medium of the Weekly Supplement to the Canadian Statistical Review (Catalogue No. 11-004). These issues should be inserted into the present publication in place of the obsolete sheets. In this way, users will be kept abreast of all revisions to the data and of all additions or deletions to the series in the S-section of the Review, and have at all times the entire postwar record.

On the following page are revisions to unadjusted and/or seasonally adjusted series. Except for the consumer Price Index which has been re-based to 1961=100, revisions to seasonally adjusted series reflect the incorporation of current data.

AVANT-PROPOS

Le présent volume est la huitième édition du Supplément annuel. Il contient les chiffres chronologiques mensuels et trimestriels, corrigés des variations saisonnières et bruts, de toutes les séries de la Section "S" de la Revue statistique mensuelle du Canada. Les pages sont numérotées et les séries présentées dans le même ordre que dans la Revue. Ainsi, S-1-1 signifie que la série contenue dans le Supplément est la première de la page S-1 de la Revue. La présente édition remplace toutes les éditions antérieures, dont la dernière a paru en septembre 1968.

Les données corrigées des variations saisonnières et brutes sont les chiffres révisés les plus récents et s'étendent à décembre 1968; on peut les tenir à jour grâce aux numéros courants de la Revue. Advenant la modification durant l'année des données primitives ou de la méthode de correction des variations saisonnières, des revisions complètes seront mises à la disposition de tous les abonnés par l'intermédiaire du Supplément hebdomadaire à la Revue statistique du Canada, (no. de catalogue 11-004), et devront être insérés dans la présente publication à la place des feuilles périmées. De cette façon, l'utilisateur sera tenu au courant de toutes les revisions et de toutes les données ajoutées ou supprimées dans la Section "S" de la Revue, et aura constamment à sa disposition l'ensemble des chiffres d'après-guerre.

Les revisions des séries corrigées et/ou non corrigées des variations saisonnières sont indiquées à la page suivante. A l'exception de l'indice des prix à la consommation, qui a été converti à la base de 1961=100, les séries corrigées des variations saisonnières ont été rectifiées afin de traduire l'intégration des données courantes.

<u>Pages</u>	<u>Subject -- Sujet</u>	<u>Period covered in revision -- Période de revision</u>
S- 1.	Labour Force -- Main d'oeuvre Seasonally Adjusted -- Désaisonnalisée	1953-68
S- 5.	New Motor Vehicle Sales -- Ventes de voitures automobiles neuves Unadjusted -- Non corrigées des variations saisonnières Seasonally Adjusted -- Corrigées des variations saison- nières	1953-60 1953-68
S- 6.	New Dwelling Units, by Months -- Nouveaux logements, par mois Seasonally Adjusted -- Corrigés des variations saison- nières	1956-68
S- 7.	Exports and Imports -- Exportations et importations Seasonally Adjusted -- Corrigées des variations saison- nières	1966-68
S- 8.	Manufacturing Shipments, Inventories and Orders -- Expé- ditions, stocks et commandes des fabricants Unadjusted and Seasonally Adjusted -- Corrigés et non corrigés des variations saisonnières	1961-68
	Consumer Credit Outstanding, by months -- Crédit à la consommation en cours, par mois Unadjusted and Seasonally Adjusted -- Corrigé et non corrigé des variations saisonnières	1966-68
S- 9.	Consumer Credit Outstanding, by Quarters -- Crédit à la consommation en cours, par trimestre Unadjusted and Seasonally Adjusted -- Corrigé et non corrigé des variations saisonnières	1966-68
	New Dwelling Units, by Quarters -- Nouveaux logements, par trimestre Seasonally Adjusted -- Corrigés des variations saison- nières	1956-68
	Commercial Failures -- Faillites commerciales Seasonally Adjusted -- Corrigées des variations saison- nières	1966-68
S-10.	Consumer Price Index -- Indice des prix à la consommation	1949-68

(1) STARTING IN JANUARY 1962, THE DATA ARE NOT ENTIRELY COMPARABLE WITH EARLIER YEARS BECAUSE MORE CENTRES ARE INCLUDED AND BECAUSE OF THE EXPANSION OF THE BOUNDARIES OF METROPOLITAN AREAS. PRIOR TO 1962, DATA RELATE TO CENTRES WITH A POPULATION OF 5,000 AND OVER. -- A COMPTER DE JANVIER 1962, LES CHIFFRES NE SONT PAS ENTIÈREMENT COMPARABLES À CEUX DES ANNÉES ANTÉRIEURES EN RAISON DU PLUS GRAND NOMBRE DE CENTRES ET DE L'EXPANSION DES LIMITES DES ZONES MÉTROPOLITAINES. AVANT 1962, LES DONNÉES S'APPLIQUENT AUX CENTRES DE 5,000 ET PLUS DE POPULATION.

NEW DWELLING UNITS COMPLETED, CENTRES 10,000 AND OVER(1) -- LOGEMENTS NEUFS ACHEVÉS, CENTRES DE 10,000 HABITANTS ET PLUS(1)

Volume IX
Price—Prix: \$1.00

This is the ninth edition of the "Annual Supplement". It contains the monthly and quarterly historical records, adjusted and unadjusted for seasonality, of all the series appearing in Section 1 of the monthly Canadian Statistical Review. The pages and the series are arranged in the same order as they appear in the "Review". Thus T-1-1 signifies that the series contained therein is the first one in Table 1 of the section. This edition supersedes all previous editions, the last of which was published in October 1969.

The adjusted and unadjusted data are the latest revised figures published and extend to December 1969; they may be kept up-dated by referring to current issues of the "Review". Should the original data or the method of seasonal adjustment be revised during the year, the complete revisions will be made available to all subscribers through the medium of the "Weekly Supplement to the Canadian Statistical Review" (Catalogue No. 11-004). These issues should be inserted into the present publication in place of the obsolete sheets. In this way, users will be kept abreast of all revisions to the data and of all additions or deletions to the series in Section 1 of the Review, and have at all times the entire postwar record.

On the following pages are revisions to unadjusted and/or seasonally adjusted series. For most series, revisions to seasonally adjusted figures reflect the incorporation of current data. For exports and imports, adjustments have been made to eliminate minor statistical discrepancies between the sum of the seasonally adjusted components and published totals, and between the annual sum of seasonally adjusted monthly data and published raw data.

Le présent volume est la neuvième édition du "Supplément annuel". Il contient les chiffres chronologiques mensuels et trimestriels, corrigés des variations saisonnières et bruts, de toutes les séries de la Section 1 de la "Revue statistique mensuelle du Canada". Les pages et les séries sont présentées dans le même ordre que dans la "Revue". Ainsi, T-1-1 signifie que la série contenue dans le "Supplément" est la première du Tableau 1 de la section. La présente édition remplace toutes les éditions antérieures, dont la dernière a paru en octobre 1969.

Les données corrigées des variations saisonnières et brutes sont les chiffres révisés les plus récents et s'étendent à décembre 1969; on peut les tenir à jour grâce aux numéros courants de la "Revue". Advenant la modification durant l'année des données primitives ou de la méthode de correction des variations saisonnières, des revisions complètes seront mises à la disposition de tous les abonnés par l'intermédiaire du "Supplément hebdomadaire à la Revue statistique du Canada", (numéro de catalogue 11-004), et devront être insérés dans la présente publication à la place des feuilles périmées. De cette façon, l'utilisateur sera tenu au courant de toutes les revisions et de toutes les données ajoutées ou supprimées dans la Section 1 de la Revue, et aura constamment à sa disposition l'ensemble des chiffres d'après-guerre.

Les revisions des séries corrigées et/ou non corrigées des variations saisonnières sont indiquées à la page suivante. Pour la plupart des séries, la révision des chiffres désaisonnalisés résulte de l'introduction de données courantes. Pour les exportations et les importations, on a effectué des rectifications afin de supprimer les petits écarts entre la somme des éléments désaisonnalisés et les totaux publiés, ainsi qu'entre la somme annuelle des données mensuelles désaisonnalisées et les données brutes publiées.

Pages	Subject -- Sujet	Period covered in revision -- Période de revision
T-1	Labour Force -- Main d'oeuvre Seasonally Adjusted -- Corrigés des variations saisonnières	1953-1969
T-3	Employment -- Emploi Seasonally Adjusted -- Corrigés des variations saisonnières	1961-1969
T-4	Income, Earnings and Hours -- Revenus, gains horaires et heures hebdomadaires Seasonally Adjusted -- Corrigés des variations saisonnières	1961-1969
T-5	New Motor Vehicle Sales -- Ventes des voitures automobiles neufs Seasonally Adjusted -- Corrigés des variations saisonnières	1966-1969
T-6	Construction Value of Building Permits -- Valeur des permis à bâtir Seasonally Adjusted -- Corrigés des variations saisonnières New Dwelling Construction -- Construction de logements neufs Seasonally Adjusted -- Corrigés des variations saisonnières Starts -- Commencés Completions -- Achevés	1965-1969 1965-1969 1967-1969
T-7	Exports and Imports -- Exportations et Importations Unadjusted and Seasonally Adjusted -- Corrigés et non corrigés des variations saisonnières	1947-1969
T-8	Selected Monthly Series -- Certaines séries mensuelles Seasonally Adjusted -- Corrigés des variations saisonnières Rail Revenue Freight Loaded -- Traffic ferroviaire commercial Cheques Cashed -- Chèques présentés à la compensation Commercial Failures -- Faillites commerciales	1968-1969 1968-1969 1966-1969
T-9	Income and Expenditure Accounts -- Comptes nationaux des revenus et dépenses Unadjusted and Seasonally Adjusted -- Corrigés et non corrigés des variations saisonnières	1947-1969

ERRATA

Table — T-1-5

The english title should read:
UNEMPLOYMENT RATE.

Tableau — T-1-5

Le titre anglais devrait lire:
UNEMPLOYMENT RATE.

Tables — T-4-1 and T-4-2

The data are based on the 1948
S.I.C. Data based on the 1960 S.I.C.
will be published in the December 11th
issue of the Weekly Supplement to the
Canadian Statistical Review.

Tableaux — T-4-1 et T-4-2

Les données sont basées sur la C.T.I.
de 1948. Celles basées sur la C.T.I. de
1960 seront publiées dans l'édition du 11
décembre du Supplément hebdomadaire de la
Revue Statistique du Canada.

(1) STARTING IN JANUARY 1962, THE DATA ARE NOT ENTIRELY COMPARABLE WITH EARLIER YEARS BECAUSE MORE CENTRES ARE INCLUDED AND BECAUSE OF THE EXPANSION OF THE BOUNDARIES OF METROPOLITAN AREAS. PRIOR TO 1962, DATA RELATE TO CENTRES WITH A POPULATION OF 5,000 AND OVER. -- A COMPTER DE JANVIER 1962, LES CHIFFRES NE SONT PAS ENTIÈREMENT COMPARABLES À CEUX DES ANNÉES ANTÉRIEURES EN RAISON DU PLUS GRAND NOMBRE DE CENTRES ET DE L'EXPANSION DES LIMITES DES ZONES MÉTROPOLITAINES. AVANT 1962, LES DONNÉES S'APPLIQUENT AUX CENTRES DE 5,000 ET PLUS DE POPULATION.

NEW DWELLING UNITS COMPLETED, CENTRES 10,000 AND OVER(1) -- LOGEMENTS NEUFS ACHEVÉS, CENTRES DE 10,000 HABITANTS ET PLUS(1)

Ottawa

This first instalment of the tenth edition of the "Annual Supplement to the Canadian Statistical Review" covers 70 of the 91 selected economic indicators appearing in Section 1 of the Review. It contains the monthly and quarterly historical records, unadjusted and adjusted for seasonality. Further instalments will be issued as revision programs for the series are completed. All pages should be released by early 1972.

The pages and the series are arranged in the same order as they appear in the "Review". Thus T-2-1 signifies that the series contained therein is the first one in Table 2. This edition supersedes all previous editions, the last of which was published in October 1970.

The unadjusted and adjusted data are the latest revised figures published and extend to December 1970; they may be kept up-dated by referring to current issues of the "Review". Should the original data or the method of seasonal adjustment be revised during the year, the complete revisions will be made available to all subscribers through the medium of the "Weekly Supplement of the Canadian Statistical Review" (Catalogue No. 11-004). They should be inserted into the present publication in place of the obsolete sheets. In this way, users will be kept abreast of all revisions to the data and of all additions or deletions to the series in Section 1 of the Review, and have at all times the entire postwar record.

On the following pages are revisions to unadjusted and/or seasonally adjusted series. For most series, revisions to seasonally adjusted figures reflect the incorporation of current data. For exports and imports, adjustments have been made to eliminate minor statistical discrepancies between the sum of the seasonally adjusted components and published totals, and between the annual sum of seasonally adjusted monthly data and published raw data.

Cette première partie de la dixième édition du "Supplément annuel de la Revue statistique du Canada" vise 70 des 91 indicateurs économiques figurant dans la Section 1 de la Revue. Elle comprend des données chronologiques mensuelles et trimestrielles, corrigées et non corrigées des variations saisonnières. D'autres parties seront publiées, à mesure que des révisions des séries seront terminées. La dernière tranche devrait paraître au début de 1972.

La disposition des pages et des séries est la même que dans la Revue. Ainsi, T-2-1 signifie qu'il s'agit de la première série du Tableau 2. La présente édition remplace toutes les éditions antérieures, dont la dernière a paru en octobre 1970.

Les données désaisonnalisées et non désaisonnalisées représentent les chiffres rectifiés les plus récents et s'étendent jusqu'à décembre 1970; on peut les mettre à jour en se reportant aux derniers numéros de la Revue. Advenant la modification, au cours de l'année, des données initiales ou de la méthode de désaisonnalisation, toutes les rectifications seront mises à la disposition des abonnés par l'intermédiaire du "Supplément hebdomadaire de la Revue statistique du Canada" (n° 11-004 au catalogue). Il faut les ajouter à la présente publication, à la place des feuilles périmées. Ainsi, les utilisateurs seront tenus au courant de toutes les données ajoutées ou supprimées dans la Section 1 de la Revue, et auront constamment à leur disposition l'ensemble de la statistique de l'après-guerre.

On trouvera aux pages suivantes des révisions aux séries désaisonnalisées et non désaisonnalisées. Pour la plupart des séries, la revision des données désaisonnalisées résulte de l'introduction des dernières données. En ce qui concerne les exportations et les importations, on a effectué des rectifications afin de supprimer les petites divergences statistiques entre la somme des éléments désaisonnalisés et les totaux publiés, ainsi qu'entre les données mensuelles désaisonnalisées et les données brutes publiées.

(1) STARTING IN JANUARY 1962, THE DATA ARE NOT ENTIRELY COMPARABLE WITH EARLIER YEARS BECAUSE MORE CENTRES ARE INCLUDED AND BECAUSE OF THE EXPANSION OF THE BOUNDARIES OF METROPOLITAN AREAS. PRIOR TO 1962, DATA RELATE TO CENTRES WITH A POPULATION OF 5,000 AND OVER. -- A COMPTER DE JANVIER 1962, LES CHIFFRES NE SONT PAS ENTièrement COMPARABLES À CEUX DES ANNÉES ANTÉRIEURES EN RAISON DU PLUS GRAND NOMBRE DE CENTRES ET DE L'EXPANSION DES LIMITES DES ZONES MÉTROPOLITAINES. AVANT 1962, LES DONNÉES S'APPLIQUENT AUX CENTRES DE 5,000 ET PLUS DE POPULATION.

NEW DWELLING UNITS COMPLETED, CENTRES 10,000 AND OVER(1) -- LOGEMENTS NEUFS ACHEVÉS, CENTRES DE 10,000 HABITANTS ET PLUS(1)

(1) NEW EXPORT AND IMPORT PRICE INDEX SERIES HAVE BEEN INTRODUCED STARTING WITH 1967 STATISTICS ON 1968 PRICE AND WEIGHT BASIS. BECAUSE OF MAJOR CHANGES IN COMPOSITION, THESE SERIES ARE NOT COMPARABLE WITH PREVIOUSLY PUBLISHED SERIES (1948=100). -- DES NOUVELLES SÉRIES D'INDICE DE PRIX D'EXPORTATIONS ET D'IMPORTATIONS ONT ÉTÉ INTRODUITES À COMPTER DES STATISTIQUES POUR L'ANNÉE 1967 SUR LA BASE DE 1968, COMME BASE DE PRIX ET DE LA PONDERATION. PAR SUITE DE CHANGEMENTS MAJEURS DANS LA COMPOSITION DES INDICES, CES SÉRIES NE SONT PAS COMPARABLES AUX SÉRIES PUBLIÉES ANTÉRIEUREMENT (1948=100).
